

PERIYASWAMY S

SENIOR WEB DEVELOPER — MAGENTO | WORDPRESS | WOOCOMMERCE | PHP | REACT.JS

CAREER SUMMARY

Results-oriented Magento, WordPress, WooCommerce & PHP Developer with 10+ years of experience designing, developing, and maintaining enterprise-grade web applications and eCommerce platforms. Proven track record delivering scalable, secure, high-performance solutions using Adobe Commerce (Magento 1 & 2), WordPress, WooCommerce, PHP, JavaScript, MySQL, REST APIs, HTML5, and CSS3.

Strong expertise in custom Magento modules, WordPress plugins, WooCommerce extensions, theme development, API integrations, performance optimization, production support, and Agile software delivery. Skilled at collaborating with cross-functional teams and international stakeholders, delivering business-focused solutions for UK-based clients, including Sellerdeck.

Additionally, over 1 year of hands-on React.js experience through self-learning and personal projects — building responsive UIs and gaining practical knowledge of component-based development, state management, and REST API integration.

CORE SKILLS

Platforms	Adobe Commerce (Magento 1.x & 2.x), WooCommerce, WordPress
Languages	PHP, JavaScript (ES6+), React.js, jQuery, HTML5, CSS3, AJAX
Integration	REST APIs, JSON, XML, Payment Gateways, Third-Party Systems
Tools & DevOps	Docker, Git, SVN, GitHub, Jira, PhpStorm, VS Code, Cloudways, cPanel, Beanstalk, TortoiseSVN, TortoiseGit, WPEngine, FTP/SSH/Cron
AI Tools	GitHub Copilot, ChatGPT, Claude — used to speed up debugging, code review, and solution discovery
Databases	MySQL — schema design & query optimization

CORE COMPETENCIES

Web & eCommerce Development

- Enterprise web application development
- Magento 1 & Magento 2 development
- WordPress & WooCommerce development
- Custom plugin, theme & module development
- Responsive web development

Performance & Quality Engineering

- Application performance optimization
- Database design & MySQL query optimization
- Code review & quality assurance
- Production support, debugging & incident resolution

Integration & Solution Delivery

- REST API & third-party system integration
- Payment gateway integration
- Custom business logic implementation
- System enhancement & feature development

Collaboration & Delivery

- Agile (Scrum) software development
- Cross-functional & client stakeholder communication
- Technical documentation & knowledge sharing
- Version control (Git) & release management

EDUCATION

2011 - 2014	Master of Computer Applications (MCA) Loyola Institute of Technology, India
-------------	---

TECHNICAL RESPONSIBILITIES

Magento 1 & Magento 2

- CMS admin configuration — Payment, Shipping, VAT/tax, and store settings.
- Data migration — products and customers across Magento 1 and Magento 2.
- Extension installation, configuration, and custom development.
- Bug fixing, M1-to-M2 migrations, live/staging sites version upgrades, and patch updates.

WordPress & WooCommerce

- CMS admin configuration — Payment, VAT, Shipping, and store settings.
- Theme and plugin installation, customization, and configuration.
- WordPress and WooCommerce site creation, setup, and Cloudways site management.
- Product, customer, and order data import using the WP All Import/Export plugin.
- Bug fixing, and live/staging site plugin and theme updates.

Server & Environment Administration

- Repository setup and version control using Beanstalk, TortoiseSVN, and TortoiseGit.
- Deployment environment creation and management via Beanstalk and SSH.
- Magento 1 & 2 environment setup, and dev/live environment creation, updates, and deployment.
- cPanel management — FTP, SSH, cron jobs, domain/subdomain setup, and PHP server/version checks.
- Diagnose and resolve live site downtime on Magento and WooCommerce, engaging platform support when needed.

WORK EXPERIENCE

May 2017 - Present

Software Developer

Qatalys Software Technologies

- Design, develop, and maintain enterprise-grade Magento (Adobe Commerce), WooCommerce, and WordPress web applications for UK-based clients.
- Develop and customize Magento modules, WordPress plugins, WooCommerce extensions, themes, and reusable components to meet business requirements.
- Implement Magento theme integration and frontend customization, delivering responsive, cross-browser compatible interfaces using PHP, JavaScript, jQuery, HTML5, CSS3, and LESS.
- Build and enhance modern frontend components using React.js for internal tools, applying component-based architecture and REST API integration.
- Customize checkout workflows, pricing logic, shipping methods, tax calculations, product pages, and order management across Magento and WooCommerce platforms.
- Integrate REST APIs, payment gateways, and third-party business applications to extend platform functionality.
- Optimize website performance through code refactoring, caching strategies, frontend optimization, and MySQL query tuning.
- Troubleshoot production issues, perform root cause analysis, and implement scalable, long-term solutions.
- Participate in requirement gathering, technical design discussions, sprint planning, estimation, backlog refinement, and Agile delivery.
- Collaborate closely with UK clients, product owners, UI/UX designers, QA engineers, and project managers to deliver high-quality solutions.
- Conduct code reviews, enforce coding standards, and ensure application security, maintainability, and best practices.
- Manage source code using Git, support deployments using Docker, and work across cloud-hosted development and staging environments.
- Develop responsive, interactive user interfaces using HTML5, CSS3, JavaScript, and React, building reusable UI components and improving accessibility and cross-browser compatibility.
- Participate in website migrations, deployment activities, version upgrades, and application maintenance.
- Perform Magento live and staging site upgrades, extension updates, and security patch application.

Apr 2015 - May 2017

UI Developer

Etangerine Technology Pvt Ltd

- Developed and maintained WordPress, WooCommerce, and HTML websites based on client requirements.
- Customized WordPress themes, storefronts, product pages, and checkout processes, implementing business-specific features.
- Developed and customized WordPress themes, plugins, and WooCommerce functionality using PHP.
- Built responsive, user-friendly interfaces using HTML, CSS, JavaScript, jQuery, and XML.
- Assisted in developing custom modules, reusable components, and backend business logic for Magento 1 and WordPress applications.
- Diagnosed and resolved production issues, implemented bug fixes, and delivered feature enhancements.
- Participated in website migrations, deployment activities, version upgrades, and application maintenance.

KEY ACHIEVEMENTS

- Improved website performance by up to 20% through code optimization, database tuning, caching strategies, and frontend performance enhancements.
- Successfully delivered custom Magento, WooCommerce, and WordPress solutions, including theme integration, custom modules/plugins, API integrations, and eCommerce customizations.
- Led Magento-to-WooCommerce migration projects, ensuring seamless migration of products, customers, and orders while preserving data integrity, functionality, and performance.
